## Start Hearing Today.

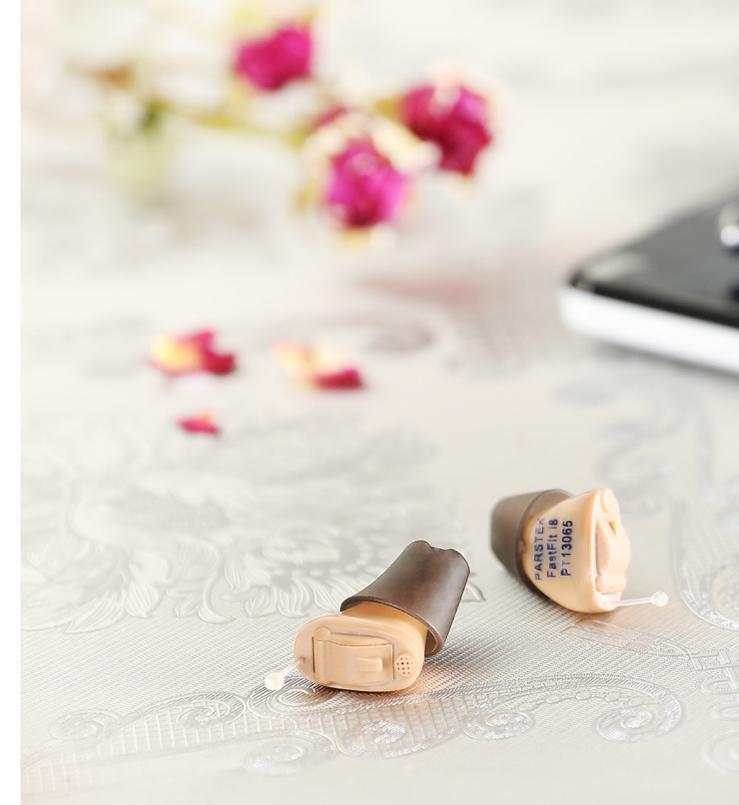

Thanks to the special design and interchangeable silicone tips of FastFit™, you can now use invisible hearing aids without the need for ear impressions. FastFit™ is a perfect choice for users who care about their appearance. When you can choose on the very first visit, don't waste time. Just hear — no delay!

## Hidden Power, Effortless Hearing

FastFit™

## A Hearing Solution as Unique as You.

When you choose FastFit™, you're not just selecting a hearing aid. You're choosing a flawless, stylish, and professional hearing experience — one that shows you value quality of life, appearance, and peace of mind. With intelligent feedback cancellation, noise reduction technology, and advanced digital sound processing, it delivers seamless performance — standing out without being seen.

## Focus on **What Truly Matters**

FastFit™, using state-of-the-art technologies, amplifies important sounds like conversations and music while reducing ambient noise.

Utilizing environment classifier technology and advanced noise reduction algorithms, FastFit™ ensures clarity even in noisy environments such as:

- Busy cafes
- Business meetings
- Streets and shopping centers

## **Confidence,** at every moment.

From everyday conversations to life's important moments, FastFit™ helps you stay engaged — without anyone noticing your hearing aid.

FastFit™ gives you back the freedom to hear.

## **Advanced Options for Your Diverse Needs**

1

Intelligent environment recognition and automatic adjustment for five different listening environments

2

Feedback cancellation circuit with adjustable sensitivity

3

Ultra-discreet and invisible design

4

Environmental noise reduction circuit

5

Tinnitus therapy program

6

Suitable for mild to severe hearing loss

7

Size 10 battery  
consult your hearing care professional for the right battery

## Experience Smart **Hearing with FastFit™**

Hearing comfort, sound clarity, and ease of use — all in one elegant and flawless hearing aid.

FastFit™ hearing aids process incoming sounds intelligently, detect the environment you're in, and adjust with high precision — without needing any manual programming or changes.

This allows you to confidently hear what you need in even the most challenging environments.

FastFit™ by ParsTek, with its built-in tinnitus therapy program, helps you not only hear better but also reduce the discomfort of tinnitus.
